

DCF sponsors second Digital Currency Day

On 16 January the [Digital Currency Foundation](#) sponsored the second Digital Currency Day at the House of Commons in London. LEO Leaders from around the world, Members of UK Parliament, Members of the House of Lords, leading commentators and leading figures from industry were invited to debate the issues that the digital currency marketplace faces – especially around legislation.

Mihir Magudia, MD of DCF, was able to present the views of the Foundation around light touch regulation that will protect participants but not hold back development of this market and the use of digital currency in all walks of life. Following the roundtable discussions, attendees joined MPS at the reception where further discussions took place with legislative opinion formers.

[Attendees to the roundtable discussions](#)
